Open Day at Sapienza: Spotlight on Health Sciences Programs

when: June 4th 2026 **at:** 2:00 PM (CET),
where: Multimedia Hall I (CU026) Department of Human Neuroscience. Sapienza University of Rome
Online: Live streaming via Zoom e YouTube.

Sapienza University of Rome invites international students to its special **Open Day** on **June 4th, 2026,** at **2:00 PM (CET)**, broadcasted live via Zoom and YouTube. The event is tailored on prospective students interested in pursuing **undergraduate and graduate programs in Health Sciences,** taught entirely **in English**, starting in the 2025/2026 academic year.

Featured Programs Include:

- **Medicine and Surgery**
- **Dentistry and Dental Prosthodontics**
- **Nursing**
- **Molecular Biology, Medicinal Chemistry, and Computer Science for Pharmaceutical Applications**
- **Bioinformatics**

- **Biochemistry**

The Presidents and Faculty members of **Health Science Programs** will offer insights into curricula, research opportunities, and career pathways for potential students to be enrolled in the programs above. Participants will hear a detailed overview of each degree's structure, clinical/research partnerships, and admissions. **Current International Students** will detail their firsthand experiences on academic life, internships, and integration into Rome's vibrant community**. Administrative Staff** will provide guidance on admissions, scholarships, visas, and housing. A dedicated **Q&A session** will address practical topics such as program requirements, language proficiency, clinical training, career prospects, as well as insights into the modalities of access, including admission tests and timelines. Interactive videos will showcase campus facilities, laboratories, and student life in Rome.

Why Sapienza?

Ranked among the **top 100 universities globally**, Sapienza combines academic excellence with an internationally competitive environment in research and teaching. Its Health Sciences programs are renowned for interdisciplinary collaboration, cutting-edge technology, and ties to Rome's leading hospitals and biotech industries. Beyond academics, Sapienza offers unmatched advantages: the cultural richness of Rome, affordable living costs compared to Northern Europe, and a Mediterranean lifestyle. For students aspiring to excellence in healthcare, biomedical research, or pharmaceutical innovation, Sapienza provides a unique gateway to European and global opportunities.

Secure your spot to explore how Sapienza's English-taught programs offer opportunities for your career in Health Sciences!

Registration Information:

To finalize your registration, completion of the appropriate registration form is required. For in-person attendance, please use the provided Google form. For virtual participation, please register via the Zoom registration form. Please be advised that in-person attendance is strictly limited; therefore, immediate registration is strongly recommended to guarantee your place!

Program

Date: 4th June 2026 at: 2:00 PM (CET),

Chairwoman: Prof. Mariangela Biava
