Focus on Open Science
Chapter IV: Rome
Skills and education - Citizen Science

May 9th 2019
Sapienza University
Department of Oral and Maxillofacial Science
Floor 1, room B1
Via Caserta 6, Rome

An event organised by:
Scientific Knowledge Services in cooperation with Sistema Bibliotecario Sapienza (SBS) - Sapienza Library System. LIBER (Association of European Research Libraries) and UCL Press are the official partners of this event.

The Challenge of Open Science
Science describes the current transition in how research is undertaken, how the outputs are stored and disseminated, how researchers collaborate, how success is measured and how researchers are rewarded for Open approaches. Open Science has the potential to transform the research landscape. What is the role of academic libraries in supporting this transition? Is there indeed a role for libraries at all? What are the current views and agendas in various European countries? How do we differentiate regionally and nationally?

Main topics for Chapter IV: Rome
- Skills and education
- Citizen Science

The aim of the Focus on Open Science Workshops
Started in 2015 and held across the Europe, the Focus on Open Science workshops aim to address the challenges posed by Open Science, using the 8 pillars of Open Science identified by the European Commission in its Open Science Policy Platform. The mission statement for the workshops is: “Promote the concept of, values and best practices in the Open Science to European communities, with particular reference to libraries.”
PROGRAMME

08.00-09.00  Registration and networking
09.00-09.10  Welcome note: Teodoro Valente, Deputy Rector for Research, Innovation and Technology Transfer, Sapienza University
09.10-09.45  Paul Ayris: Education as a pillar of Open Science
09.45-10.05  Sponsored talk: Ex Libris
10.05-10.30  Tiberius Ignat, Citizen Science: Why Should We Bother?
10.30-11.10  Coffee break
11.10-11.35  Roberto Barbera, Open Science experiences across Europe and Africa
11.35-12.00  Fabio Attorre, Botanical gardens and citizen science: an (as yet) under-exploited potential
12.00-12.25  Ciro Franco, Citizen Science within the context of Horizon 2020
12.25-12.45  Sponsored talk: Digital Science
12.45-14.00  Lunch break
14.00-14.25  Ilaria Fava, Citizen Science as a way to bring young students closer to Open Science via OpenAIRE
14.25-14.50  Fabio Giglioni, Knowledge at the service of the city communities and the other way around
14.50-15.15  Giannis Tsakonas, Citizen Science as an act of innovation: librarians, scientists and citizens claiming knowledge structures
15.15-16.15  Panel discussion
16.15-16.30  Closing note

Registration and information: https://www.focusopenscience.org/book/19rome/

Catering services kindly offered by UCL.
STEERING COMMITTEE

Paul Ayris Pro-Vice- Provost (UCL Library Services), Chief Executive, UCL Press, co-Chair of the LERU INFO Community (League of European Research Universities)

Colleen Campbell, Open Access 2020 Initiative, Max Planck Digital Library

Jeannette Frey, Director of BCU Lausanne and President of LIBER (Association of European Research Libraries.

Tiberius Ignat, Director of Scientific Knowledge Services

Ignasi Labastida i Juan, Head of the Research and Innovation Unit of the CRAI, University of Barcelona.

Adriana Magarotto, Director of Sapienza Library System

Frank Manista, European Open Science Manager, Jisc, UK
